

Montessori Method

The Prepared Environment

The Montessori Method highlights the significance of a thoughtfully prepared environment that helps facilitate learning. The classroom is structured to cater to the developmental requirements of the child, featuring age appropriate furniture and a multitude of activities and lessons tailored to the child's developmental needs.

Practical Life:

helps enhance muscle strength in the hands and fingers. Will improve dexterity and control, which ultimately supports the ability to hold a pencil and write with ease.

- Preliminary Exercises
- Care of the Environment
- Care of the Person
- Grace and Courtesy
- Movement
- Silence Exercises

Sensory:

aims to assist children in honing their sensory skills and enhancing their capacity to observe, compare, and differentiate various characteristics of their surrounding environment.

- Visual Sense
- Tactile Sense
- Auditory Sense
- Olfactory Sense
- Gustatory Sense
- Stereognostic Activities
- Visual Sense (no isolated Qualities)
- Sensorial Foundations for Geography

Culture:

helps children in cultivating a more profound understanding and appreciation of their surroundings as well as significantly contributes to the enhancement of empathy and understanding. Through the exploration of various cultures and traditions, children can foster a heightened sense of empathy and compassion towards others.

- The World (Geography)
- The World of Plants (Botany)
- The World of Animals (Zoology)
- The World of Science
- The World of Art
- The World of Music

Math:

Develops a strong grasp of fundamental mathematical concepts through practical, tangible experiences, which subsequently facilitates practice in memorization and abstract thinking.

- Numbers 0-10
- Decimal System
- Counting
- Exploration and Memorization of Tables
- Passage to Abstraction
- Fraction

Language:
